MAXIMUM FUNCTIONALITY FROM MINIMUM FOOTPRINT.

Latest-generation LX design, an intelligent use of vertical space and a reduced footprint:

Mini Astana LX is the glass-door vertical cabinet that combines superb performance for frozen food preservation with the quality presentation needed for really effective self-service sales.

LX DESIGN: QUALITY TAKES THE STAGE.

Clean, linear and lightweight forms enhance product visibility and focus attention on the appetising nature of the foods inside. This new design also ensures a uniform look with all Arnee LX cabinets.

- Small footprint
- High load capacity
- Easy access to products
- Practical loading

EFFICIENCY YOU CAN SEE.

High-efficiency glass doors reduce the structural impact of the cabinet and ensure an excellent view of the products on display. Latest-generation LED lights guarantee an excellent level of illumination, minimising energy consumption while maximising the scenic effect of the presentation.

QUALITY ON DISPLAY.

Despite its reduced footprint, **Mini Astana LX** boasts a generous capacity with an 8% larger than standard display area. The ultra-low, flat front top panel not only looks attractive but facilitates product management and customer access too.

CONFIGURE YOUR SPACE FOR GROWTH.

Mini Astana LX can be installed alongside other LX wall cabinets to create truly complete sales areas. Continuity in styling and a fluid display configuration offer shoppers a more satisfying experience.
